BUFFALO COUNTY --- 2.1 WNW BLUFF SIDING [44.08, -91.66]

One person passed away from heat related causes near Osseo (Trempealeau County) during a heat wave in the middle of July. The victim apparently fell outside a house on a day when full sunshine was occurring. The heat index at the nearest automated weather observing equipment at the Black River Falls airport (Jackson County) approached 100 in the afternoon. Air temperatures routinely topped out between 90 and 95 degrees with overnight lows of 70 to 75.

Thunderstorms rapidly developed during the early afternoon across southeast Minnesota and then intensified as they moved across portions of western Wisconsin. At their strongest, the storms produced large spiky hailstones with some estimated to have almost 3 inch diameters. Despite the large size, very little damage occurred except in Onalaska (La Crosse County) where two car dealerships were hit by the large hail.
